TPS CONTROLLER

Hello!

Thank you for purchasing our project. We hope that this asset will help you in creating your projects.

All the best. :)

Control:

- WASD - movement
- Right Mouse Button - Aim
- Left Mouse Button - Shoot
- J - scene restart

To replace the character with yours, drag your character to zero coordinates and transfer all scripts, weapons, etc. from the test character to yours.

If you have any problems using the package or you are unable to replace the characters, then write to us by mail: swimlight3d@gmail.com
